BAN ON CROSS-SADDLE FOR WOMEN, NOT MEN

Surprising That Recent Royal Edict Has Caused

Sensation. BY LA MARQUISE DE FONTENOY.

OYALTY'S prejudices against riding horseback astride by women, which led King George to stipu-late that there should be no riding of this kind on the occasion of his state visit to the great International Horse Show at the Olympia, in London, last week, with Queen Mary and the President of the French republic, is nothing new, and, under the circumstances, t is curious that it should have created so much of a sensation. For King Edward took absolutely the same view as his son, and during the closing years of his reign issued an order forbidding grown-up women from riding astrice in the Row, in Hyde Park.

The order owed its origin to a discussion between himself and Lady Constance Stewart Richardson, niece of the late Duke of Sutherland, who has lately been disporting herself in bare-legged Greek dances on the New York variety stage. On one occasion, when the late King was staying at Eaton Hall, as the guest of the Duke and Duchess of Westminster, a meet of the ducal hunt was held on the lawn in his honor. Lady Constance appeared upon the scene riding astride. Edward VII., who had known her ever since she was a child, remonstrated with her, whereupon she replied that even he was powerless to ston the practice. to stop the practice.

"I can stop it in my own parks, however," declared the King, and forthwith gave the order that no grown woman riding astride should be permitted in Hyde r of the royal parks of the metropolis. For it must be thoroughly understood that although Hyde Park has been open to the public since the reign of Charles I., it is still, like St. James Park, Green Park and Regent's Park, owned by the sovereign, who is at perfect liberty to establish any act that he sees fit, no matter now fan-

Edward VII., for instance, forbade that any motors driven by gasolene should be admitted to the park during the hours of four and seven in the afernoon during the season, while if King George were to decree that no one could enter Hyde Park, stroll in Kensington Garderns, or ride in Rotten Row, unless bareheaded, the public would be obliged to obey, and to lic would be obliged to obey, and to remain out of the park unless they complied with the rule. Thus, the regulation which strictly debars any one from driving in Rotten Row, excepting the sovereign in person, or cepting the sovereign in person, or complied with the rule. Thus, the ham family, namely, Sir William, tenth baronet of the line, is a well-known figure in the county life of the county life of Norfolk, having made his home for a was issued withdrawing from South city as hereditary Grand Falconer of the realm, is not a law of the land, but merely an order issued by the mon-

arch and rigidly inforced. King George when he ascended the throne intimated his intention of maintaining ir force his father's exclusion of grown women riding astride in Rotten Row. But there has been during the past eighteen months considerable laxity about the matter, and the King has not seen fit until now to exact a more rigid observance of the order, though he has made a point of refraining during his daily rides there with Princess Mary, from ac-knowledging the bows of women thus mounted.

The step which he took last week at the Olympia horse show is calculated to make more widely known than heretofcre his views about the question; and it is noteworthy that they are so strongly indorsed by the they are so strongly indorsed by the Earl of Lonsdale, president of the International Horse Show, and recognized that of Miss Beatrice Josephine Brew, niece of Captain and Mrs. William Neilboth in Great Britain and abroad as the foremost authority on hunting, riding, driving and on everything connected with hersefiesh.
